For over 15 years, the ABC Company has been producing premium-class semi-finished apple puree. We are the only company in Belarus using cold extraction technology, which allows us to preserve maximum nutrients and the natural amber color of selected Belarusian apples.

Our product is packaged in aseptic 200-liter bags without oxygen access and is securely protected by a metal barrel, ensuring the preservation of all its properties.

ABC Puree is the perfect base for baby food, confectionery products (such as marshmallows, pastila, jam), fruit spreads, and sports nutrition products.
